

§ 635.33

be considered for participation in the shark research fishery. Qualified vessels will be randomly selected to participate in the shark research fishery based on their availability and the temporal and spatial needs of the research objectives. If a vessel issued a shark research permit cannot conduct the shark research tasks, for whatever reason, that permit will be revoked and, depending on the status of the research and the fishing year, NMFS will randomly select another qualified vessel to be issued a shark research permit.

(h) *Terms and conditions.* (1) For EFPs, scientific research permits, and public display permits: Written reports on fishing activities, and disposition of all fish captured under a permit issued under this section must be submitted to NMFS within 5 days of return to port. NMFS will provide specific conditions and requirements as needed, consistent with the Consolidated HMS Fishery Management Plan, in the permit. If an individual issued a Federal permit under this section captures no HMS in any given month, either in or outside the EEZ, a “no-catch” report must be submitted to NMFS within 5 days of the last day of that month.

(2) For chartering permits, written reports of fishing activities must be submitted to NMFS by a date specified, and to an address designated, in the terms and conditions of each chartering permit.

(3) An annual written summary report of all fishing activities, and disposition of all fish captured, under the permit must be submitted to NMFS for all EFPs, scientific research permits, display permits, and chartering permits issued under this section within 30 days after the expiration date of the permit.

(4) For shark research permits, all owners and/or operators must comply with the recordkeeping and reporting requirements specified in § 635.5 per the requirement of holding a LAP for sharks.

(5) As stated in § 635.4(a)(6), failure to comply with the recordkeeping and reporting requirements of this section could result in the EFP, scientific research permit, display permit, chartering permit, or shark research permit

§ 635.33 Archival tags.

(a) *Implantation report.* Any person affixing or implanting an archival tag into a regulated species must obtain written authorization from NMFS pursuant to § 635.32. Persons so authorized to conduct archival tag implantation must provide a written report to NMFS at an address designated by NMFS, indicating the type and number of tags, the species and approximate size of the fish as well as any additional information requested in the authorization.

(b) *Landing.* Notwithstanding other provisions of this part, persons may catch, possess, retain, and land an Atlantic HMS in which an archival tag has been implanted or affixed, provided such persons comply with the requirements of paragraph (c) of this section.

(c) *Landing report.* Persons that retain an Atlantic HMS that has an archival tag must contact NMFS, prior to or at the time of landing; furnish all requested information regarding the location and method of capture; and, as instructed, remove the archival tag and return it to NMFS or make the fish available for inspection and recovery of the tag by a NMFS scientist, enforcement agent, or other person designated in writing by NMFS.

(d) *Quota monitoring.* If an Atlantic HMS landed under the authority of paragraph (b) of this section is subject to a quota, the fish will be counted against the applicable quota for the species consistent with the fishing gear and activity which resulted in the catch. In the event such fishing gear or activity is otherwise prohibited under applicable provisions of this part, the fish shall be counted against the reserve quota established for that species.

§ 635.34 Adjustment of management measures.

(a) NMFS may adjust the catch limits for BFT, as specified in § 635.23; the quotas for BFT, shark and swordfish,
